FAQ

1. How often do I need to clean my appliance?
 - To ensure that your appliance operates perfectly, it is recommended to clean it after approx. 250 cups of coffee or every two weeks. It can also be used to clean the inside of thermos flasks and coffee pots.
2. How do I need to clean my appliance?
 - Please always follow the instructions of the appliance.
3. Do I need to clean my appliance in spite of descaling it?
 - Cleaning tablets have no descaling properties. In order to remove limescale we recommend using descaling tablets 00312094.

Marketing concept

- **Target Group**
All owners of semi and fully automatic coffee machines.
- **Insight**
My coffee does not taste so delicious anymore, the coffee aroma has subsided.
- **Benefit**
Through the use of cleaning tablets, deposits like coffee fat are removed from pipes and machine parts easily, quickly and thoroughly. The coffee tastes better and the lifetime of the appliance can be prolonged.
- **R2B**
The original cleaning tablet is ideally suited to our appliances.
The efficacy was tested and approved in our own factories/laboratories.
The application is particularly gentle thanks to the special formulation and optimal dissolution time.
Furthermore, it is pre-packed in an ideal dosage for the device and thus ensures easy, thorough cleaning.
