

2 in 1 descaling tablets for fully automatic espresso machines

Coffee Machines

Article No.: 00312094

Content: 3 tablets (36g) per pack, sufficient for 3 treatments

Product features

- Extended service life of appliance due to optimal limescale protection Can help to extend lifetime and improve performance of your appliance
- 2in1: Removes limescale + protects against corrosion
- Optimized for the automatic descaling process of fully-automatic espresso makers
- Suitable for all fully-automatic coffee machines of the EQ range, as well as built-in coffee centers
- Suitable for all fully-automatic espresso makers of the surpresso series
- Accessory reference: TZ80002A

Application

Coffee machines

Frequency of use: Recommended after approx. 250 cups or every 2 weeks. Please refer always to the instruction manual or display tip.

Instruction

One tablet per use. Do not use for tin-plated and enameled appliances, except for appliances with acid-resistant enamel. In a separate vessel, dissolve one descaling tablet in 0.5 litres of lukewarm water for approximately five minutes. Decant the descaling solution into the water tank and if necessary, fill with water up to the marking. Then, please follow the appliance's instruction manual.

FAQ

1. How often do I need to descale my appliance?

- To ensure that your appliance operates perfectly, it is recommended to descale it after approx. 250 cups of coffee or every two weeks. It can also be used to descale thermos flasks and coffee pots.

Can I use acid or vinegar acetic acid instead of descaler?

- We advise you not to clean your machine with home remedies. Home remedies with acid or vinegar can attack the seals and rubber parts of your device.

3. Do I need to clean my appliance apart from descaling them?

- Descaling tablets have no cleaning properties. In order to remove coffee grease we recommend to use cleaning tablets for fully automatic coffee machines 00312097.

Marketing concept

➤ **Target Group**

All owners of semi and fully automatic coffee machines.

➤ **Insight**

I would like to descale my appliance simply and effectively, so I quickly get delicious coffee again.

➤ **Benefit**

Through the use of descaling tablets, lime scale deposits are being removed from the pipes easily, quickly and thoroughly. The coffee tastes better and the life time of the appliance can be improved.

➤ **R2B**

The original descaling tablet is ideally suited to our appliances.

The efficacy was tested and approved in our own plants.

The application is particularly gentle thanks to the special formulation, optimal dissolution time.

Furthermore, it is pre-packed in an ideal dosage for the device and thus ensures easy, thorough descaling.
